SCIENCE

Stay curious.
Ask better questions.

Discover ideas.
Describe the world.
Choose your future.

YOUR MISSION

Eureka!

By the end of this lesson,
you can...

Talk about STEM and careers

Describe people and things

Explain your study choices

One discovery.
One minute.

01 Name an invention you use every day.

02 How would your day change without it?

TODAY’S PLAN

A lesson for curious minds.

01 **CONNECT**
Build your vocabulary

02 **DISCOVER**
Explore STEM and careers

03 **PRACTISE**
Use relative clauses

04 **APPLY**
Listen, discuss and write

EasyTalk

What makes you curious?

01 Which school subject made you curious?

02 Would you rather build something, discover something or explain something?

Which word fits?

typical of the people or things in a group

a. representative

b. reliable

c. ordinary

CHECK

REPRESENTATIVE

A survey should include a representative group of students.

YOUR TURN / Make it true for you.

Which word fits?

leave someone or something out

a. include

b. exclude

c. invite

CHECK

EXCLUDE

The team must not exclude students who are new to coding.

YOUR TURN / Make it true for you.

Which word fits?

having a lot of money

a. expensive

b. costly

c. wealthy

CHECK

WEALTHY

The project received support from a wealthy donor.

YOUR TURN / Make it true for you.

Which word fits?

including different kinds of people or things

a. diverse

b. identical

c. limited

CHECK

DIVERSE

A diverse team can bring different ideas to a problem.

YOUR TURN / Make it true for you.

Which word fits?

a particular area of the economy

a. salary

b. sector

c. schedule

CHECK

SECTOR

She would like to work in the technology sector.

YOUR TURN / Make it true for you.

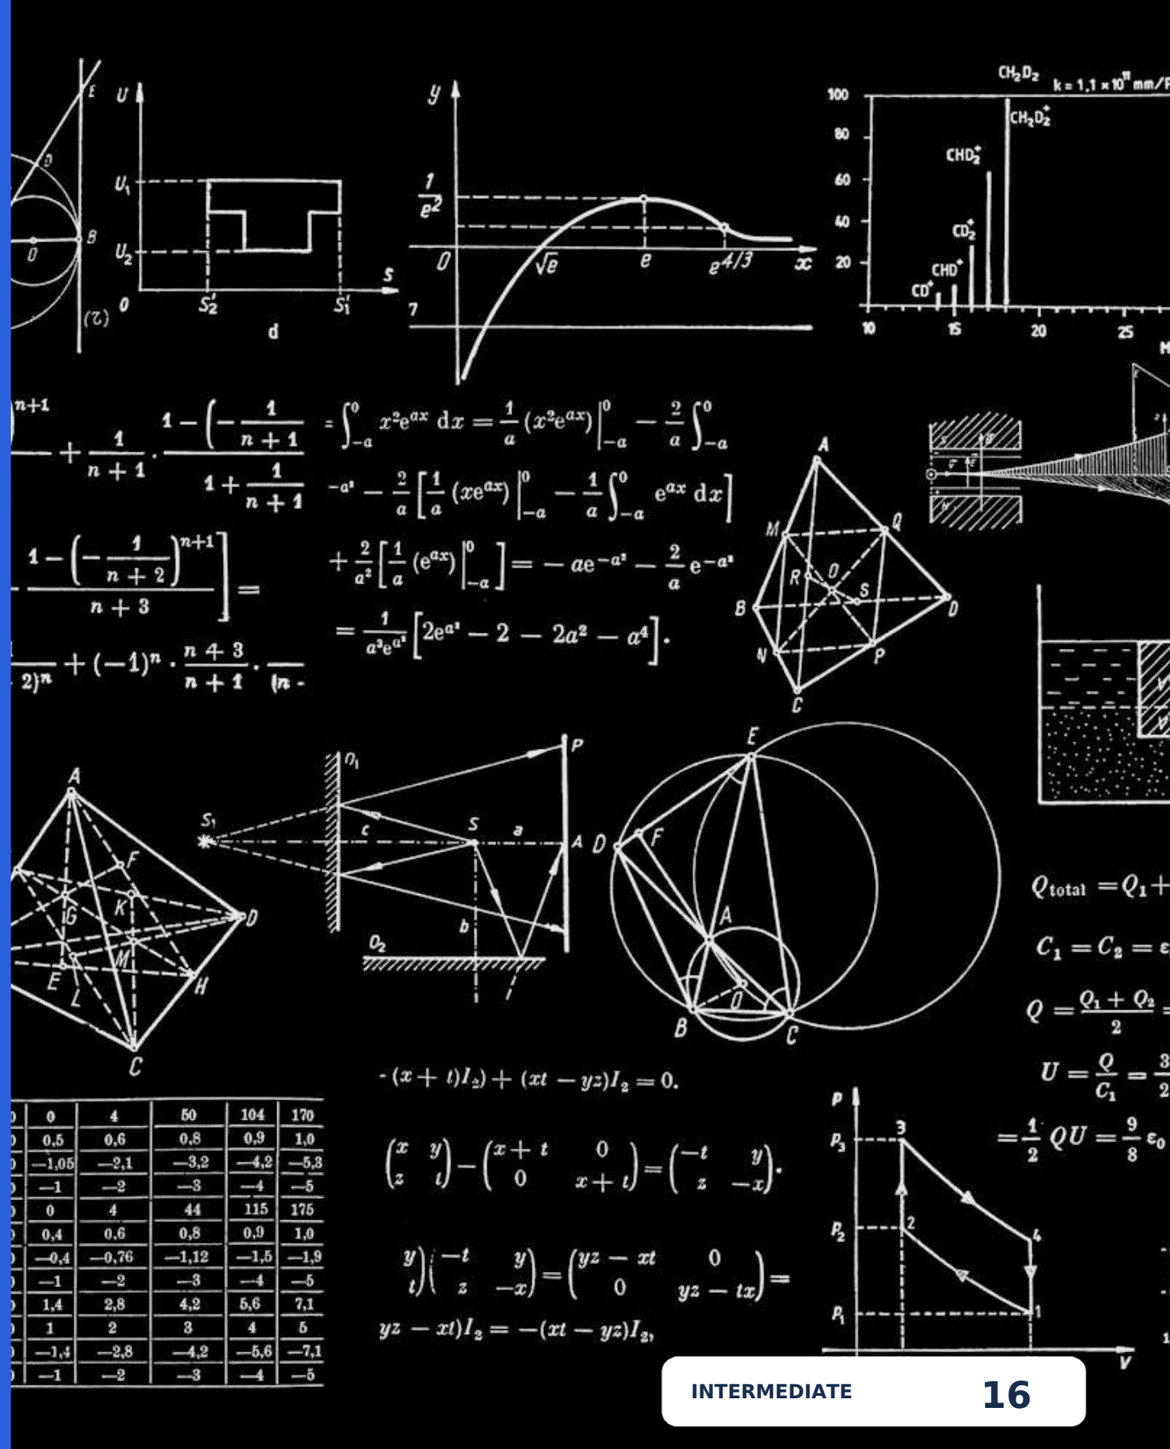

Which word fits?

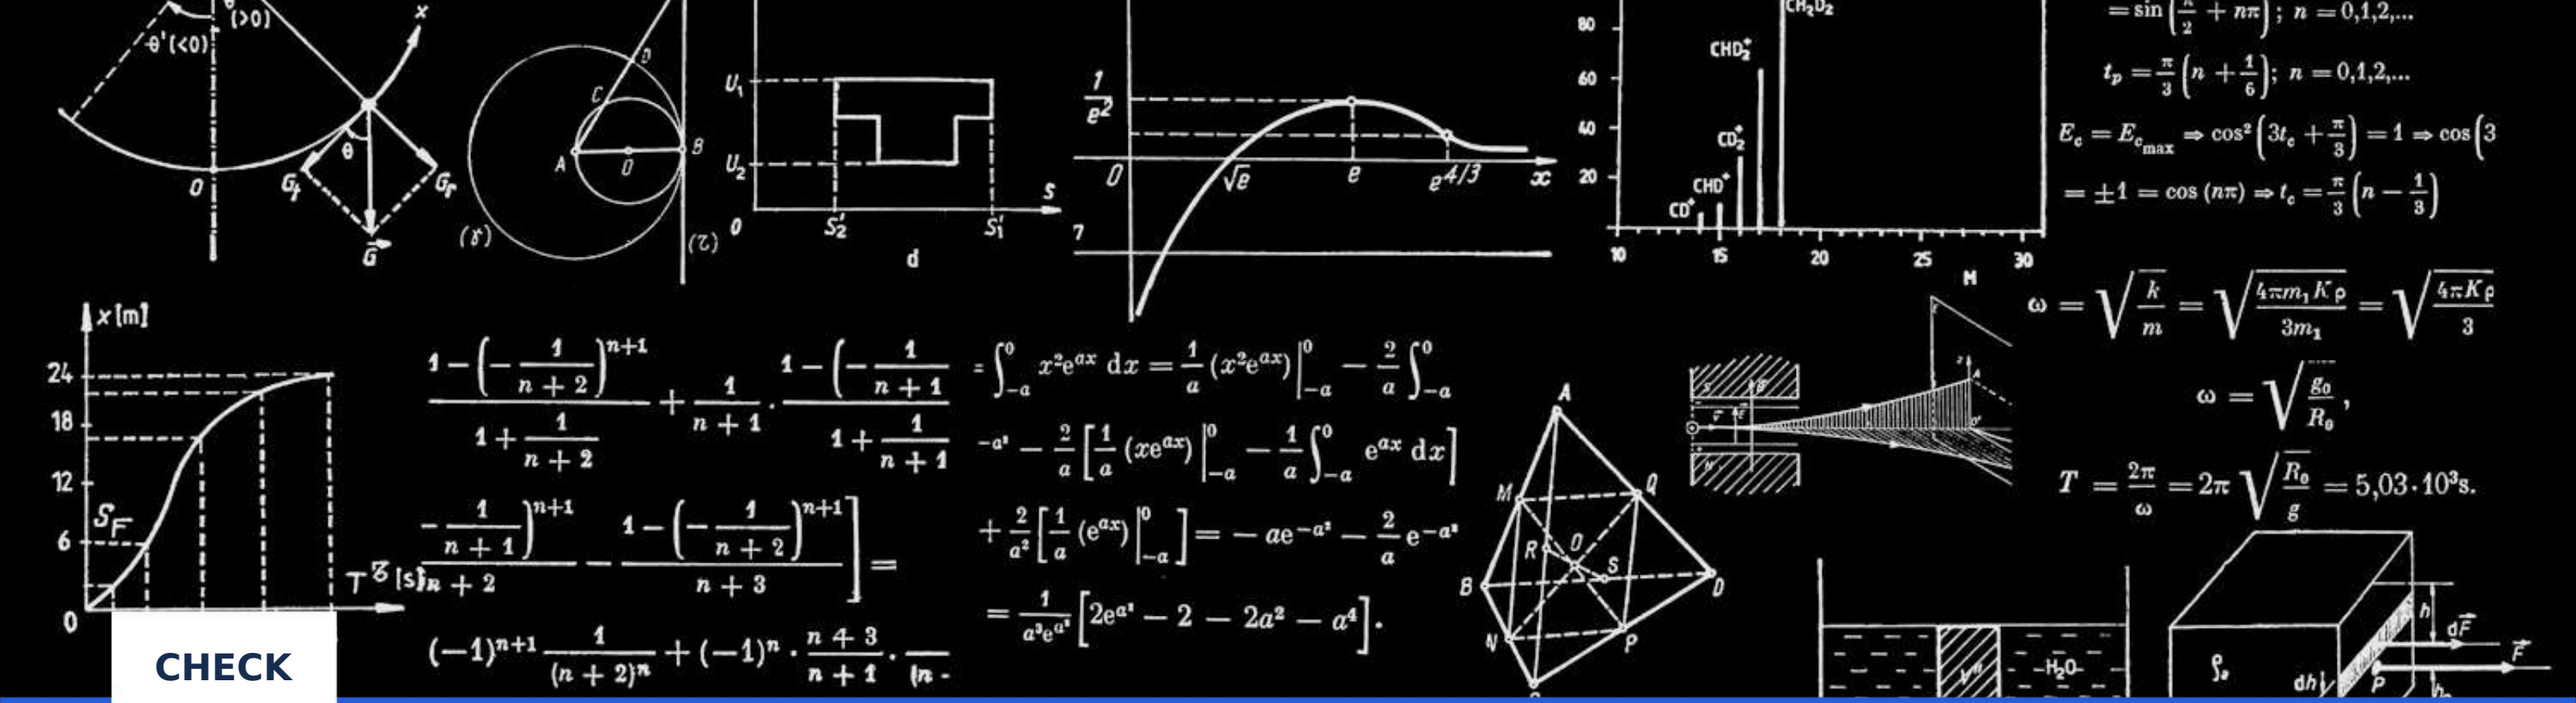

a part or share of a whole

a. process

b. purpose

c. proportion

CHECK

PROPORTION

A large proportion of our class enjoys practical experiments.

YOUR TURN / Make it true for you.

Which word fits?

divide something into smaller parts or groups

a. split

b. join

c. collect

CHECK

SPLIT

We split the class into three research teams.

YOUR TURN / Make it true for you.

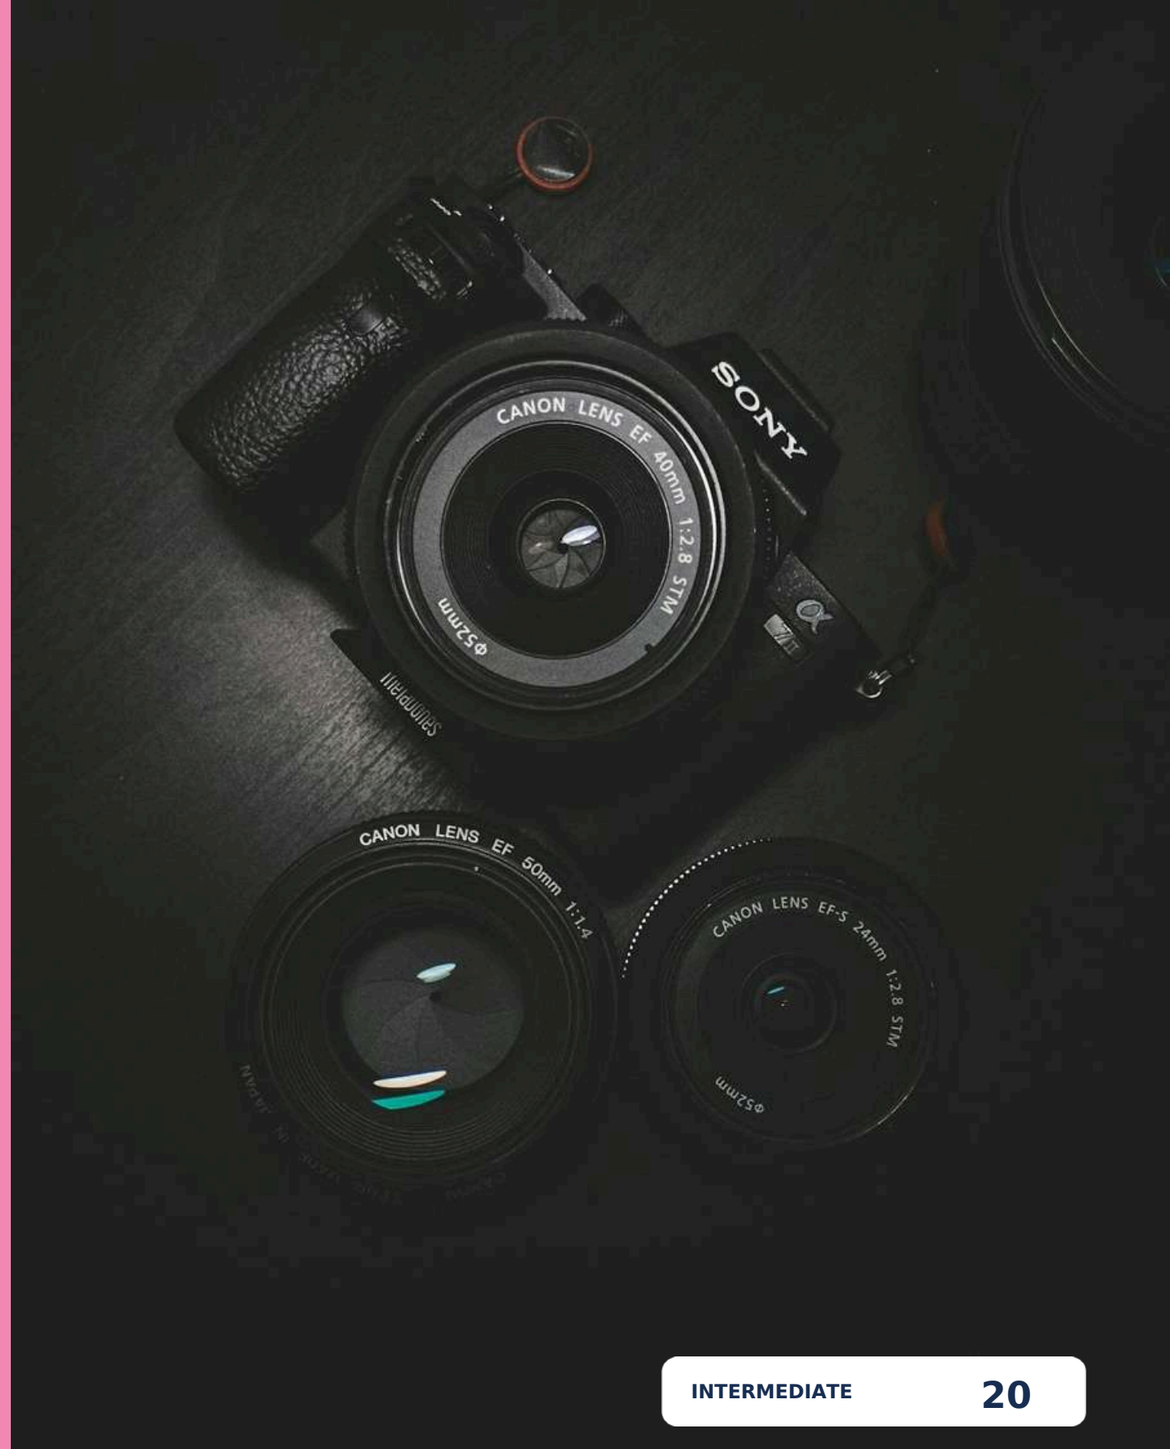

Which word fits?

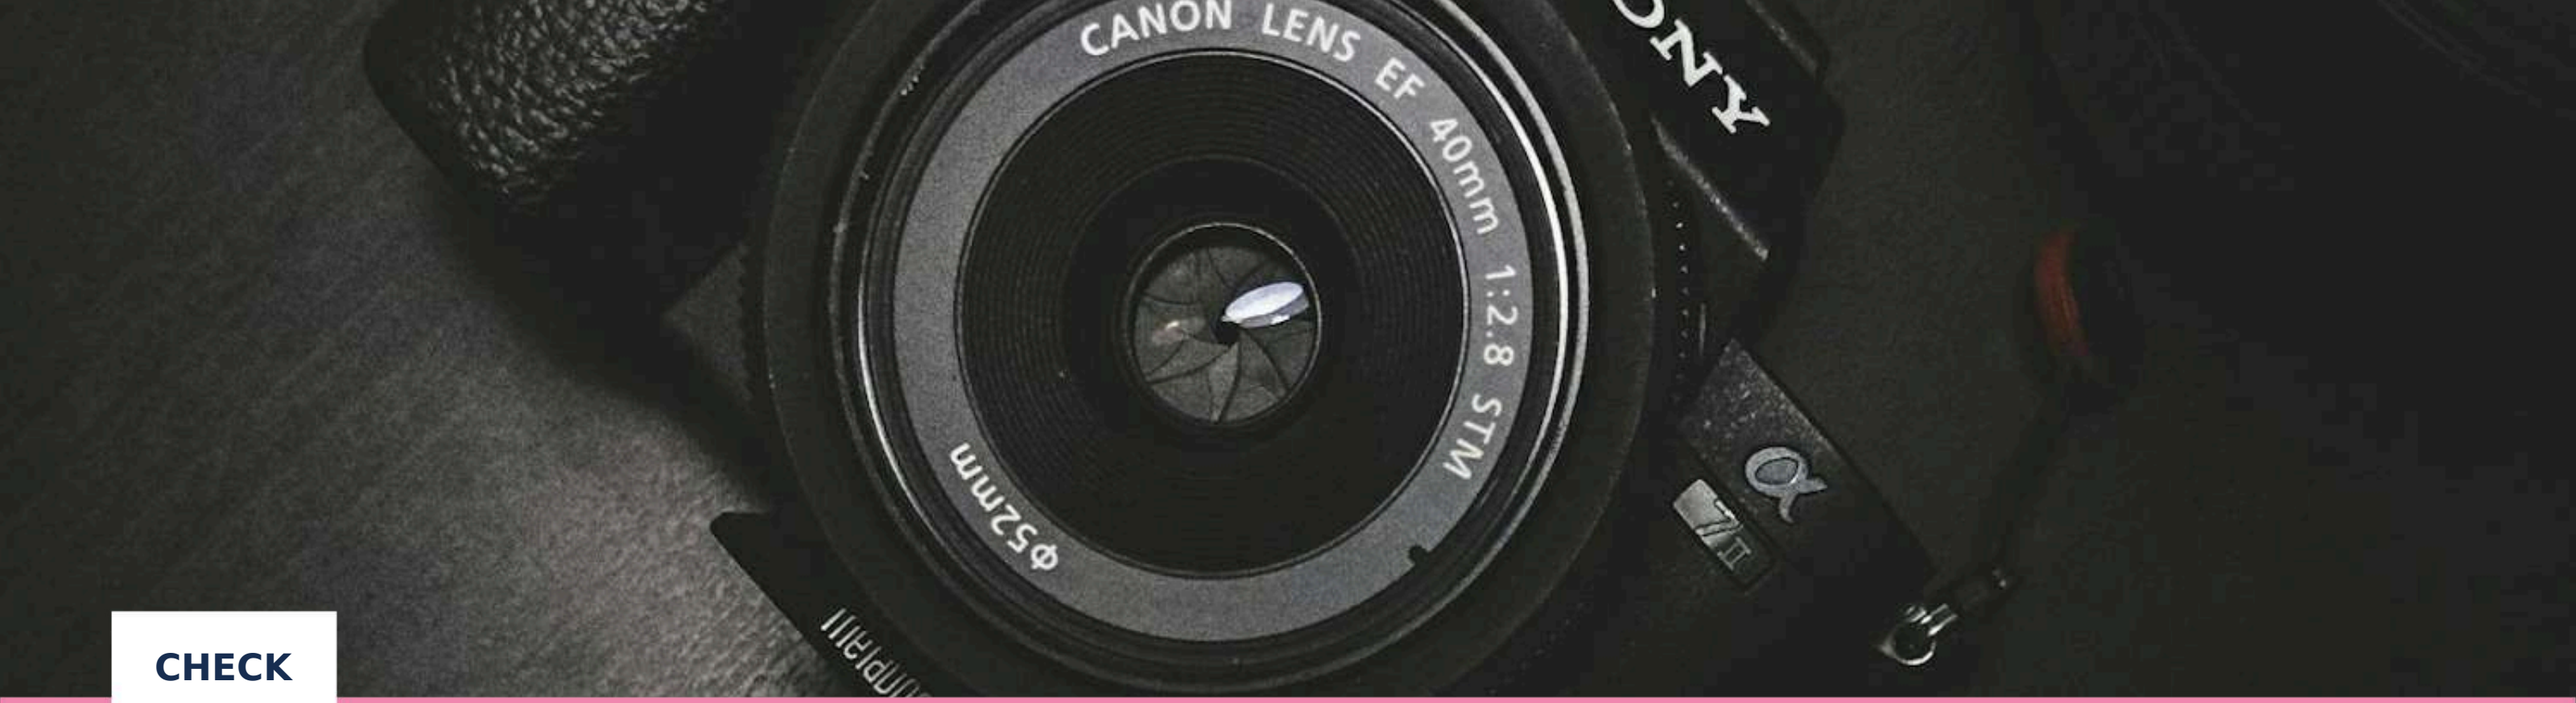

put something where people can see it

a. design

b. display

c. discover

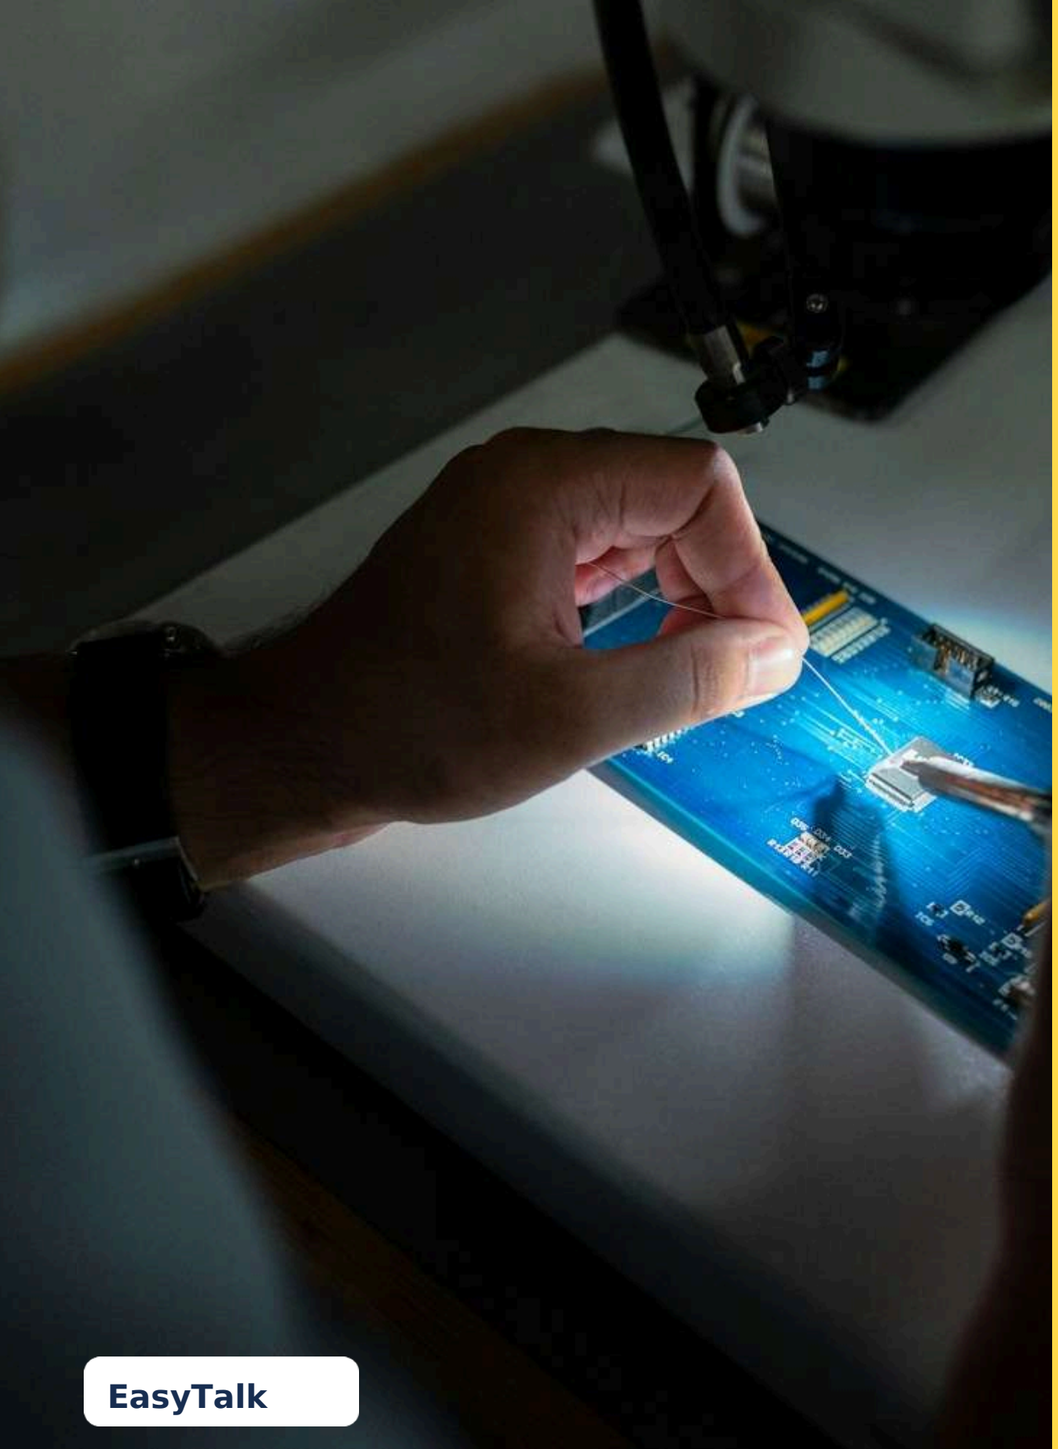

CHECK

DISPLAY

Students display their projects at the science fair.

YOUR TURN / Make it true for you.

Which word fits?

something you do or give to help achieve a result

a. competition

b. connection

c. contribution

CHECK

CONTRIBUTION

Every team member made a useful contribution.

YOUR TURN / Make it true for you.

Which word fits?

a greater liking for one thing than another

a. preference

b. prediction

c. permission

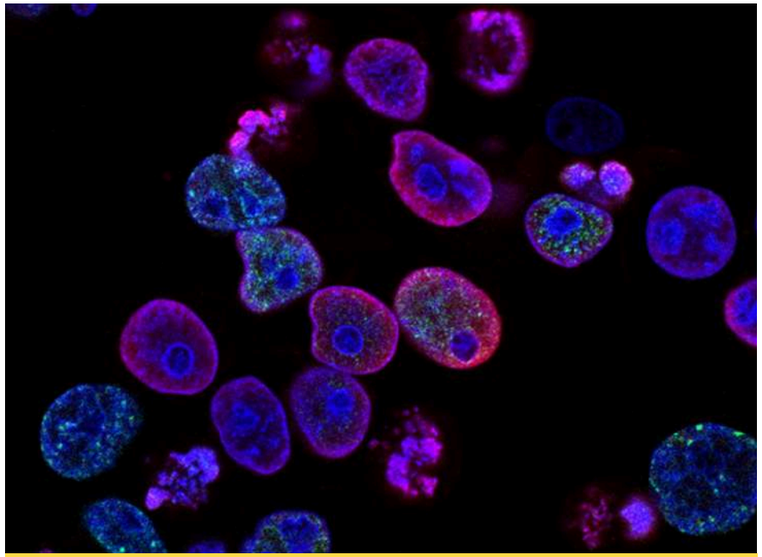

CHECK

PREFERENCE

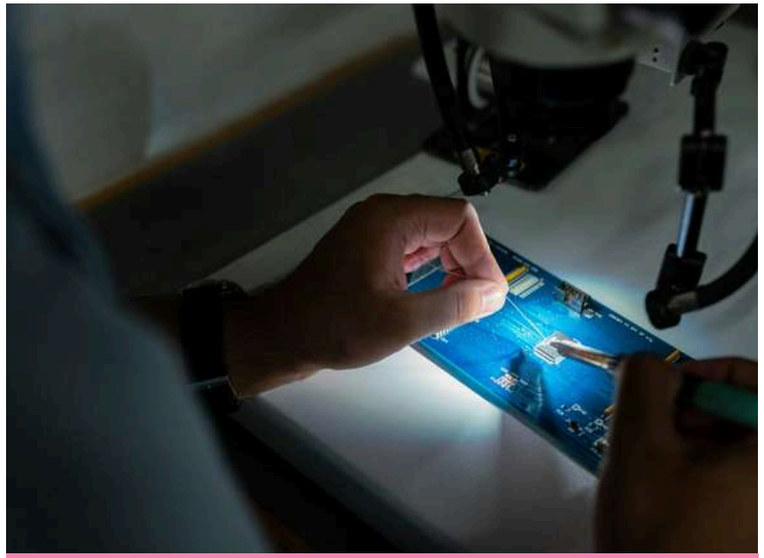

Do you have a preference for biology or physics?

YOUR TURN / Make it true for you.

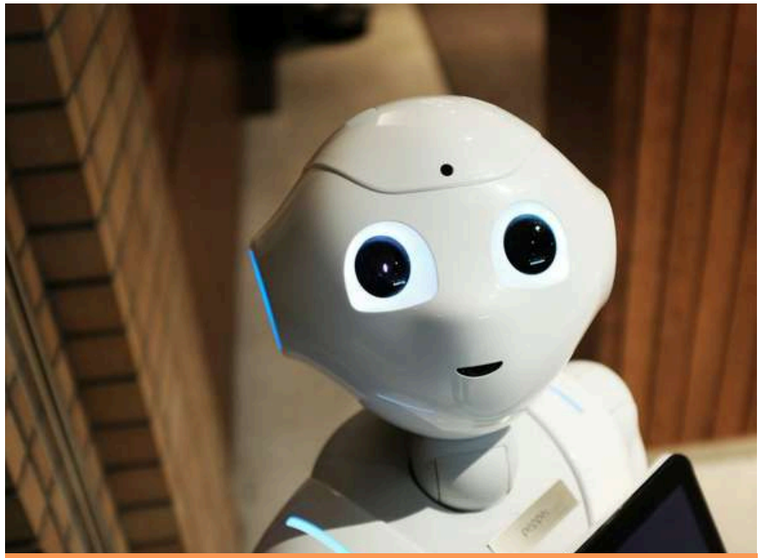

Which role could be yours?

RESEARCHER

ENGINEER

ROBOTICS EXPERT

What skills does each role need? Which would you try for a day?

Who belongs in STEM?

01

What support helps people become scientists or engineers?

02

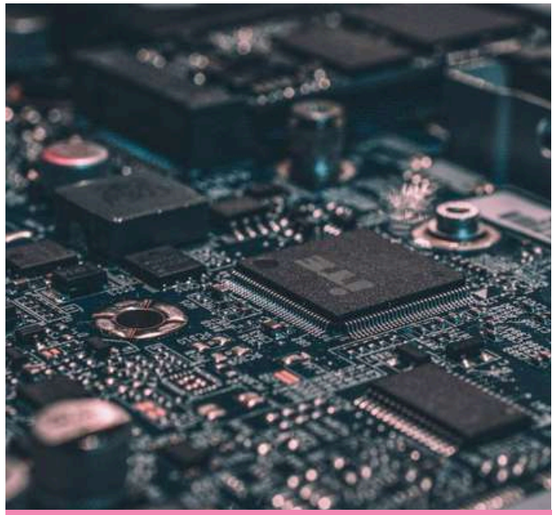

How can schools welcome students with different backgrounds?

Four letters. Endless possibilities.

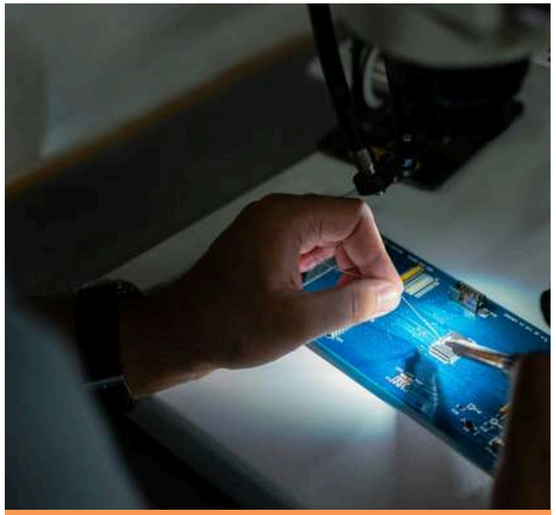

S

_____

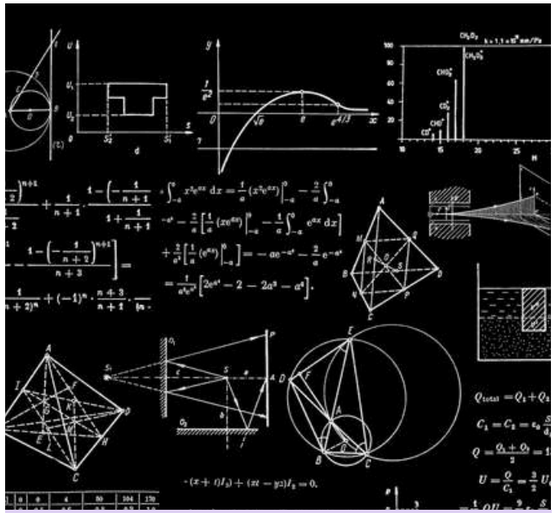

T

_____

E

_____

M

_____

What could you study or create in each field?

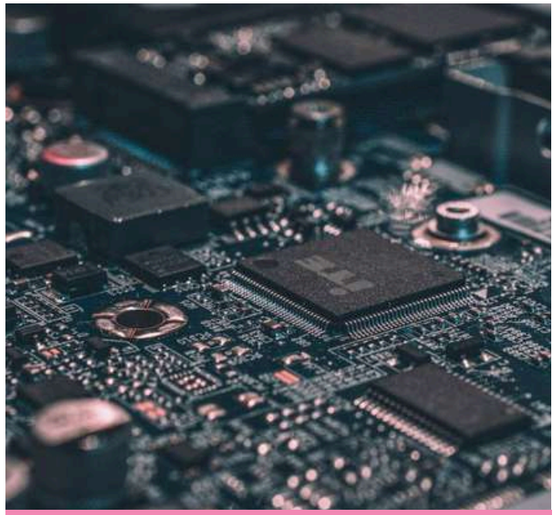

EasyTalk

Four letters. Endless possibilities.

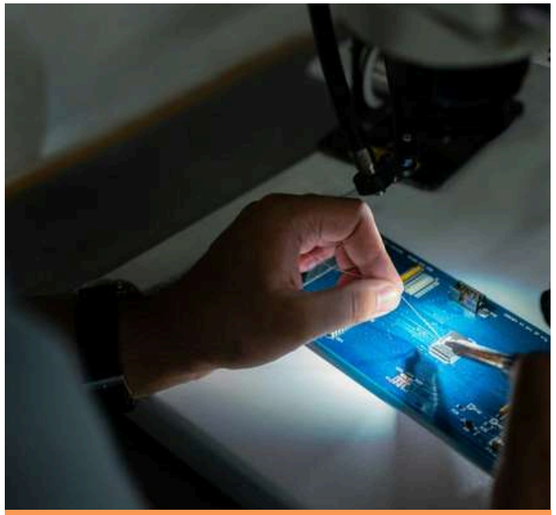

S

Science

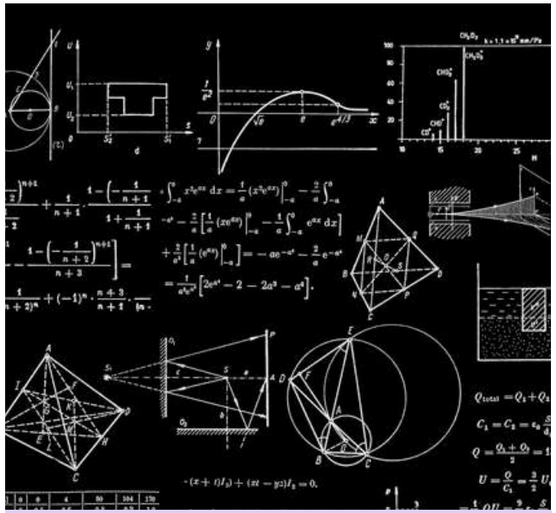

T

Technology

E

Engineering

M

Mathematics

What could you study or create in each field?

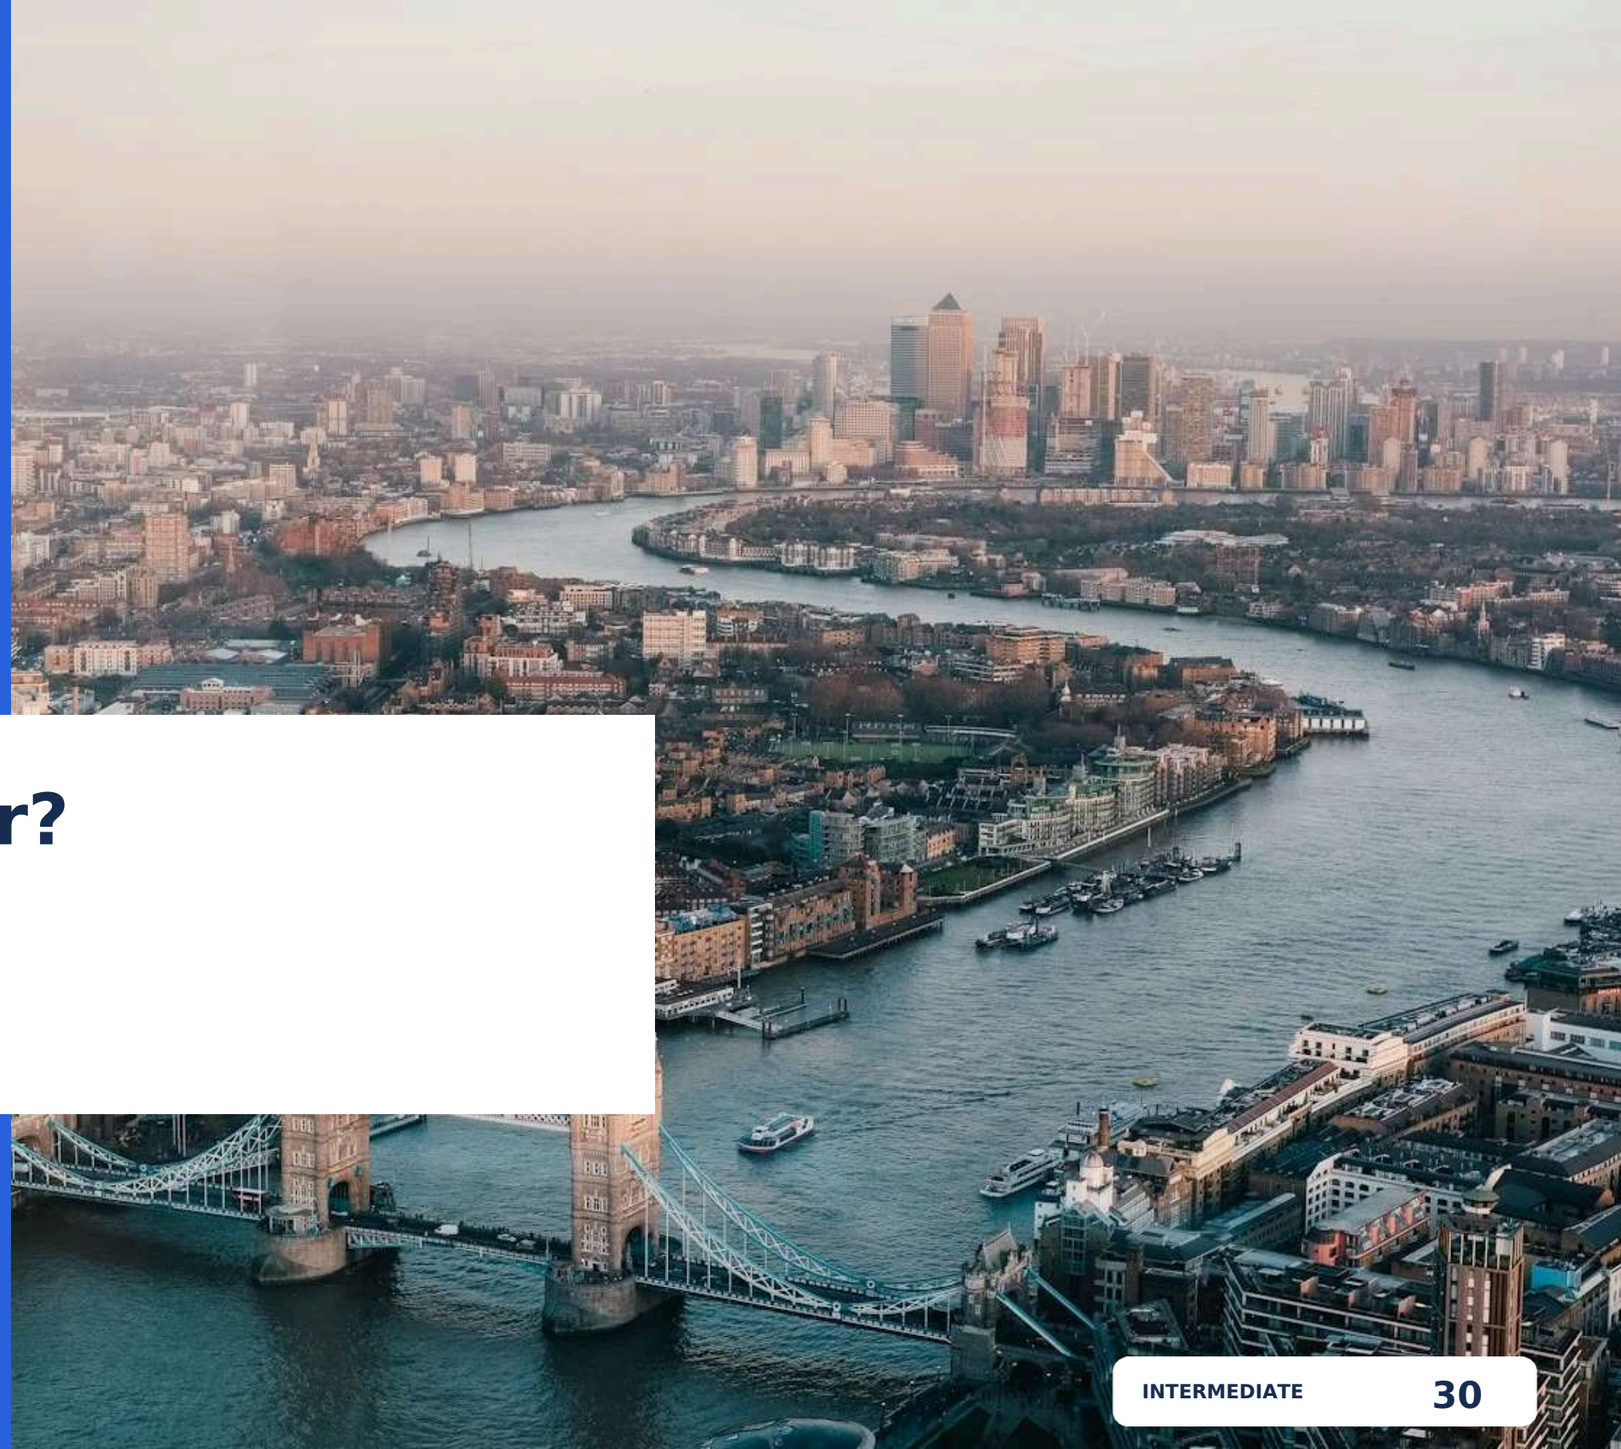

EasyTalk

DECODE THE LETTERS

BBC

Whatdoesitstand for?

A British broadcaster.

BBC

British Broadcasting Corporation

Use it in a sentence.
Share another abbreviation you know.

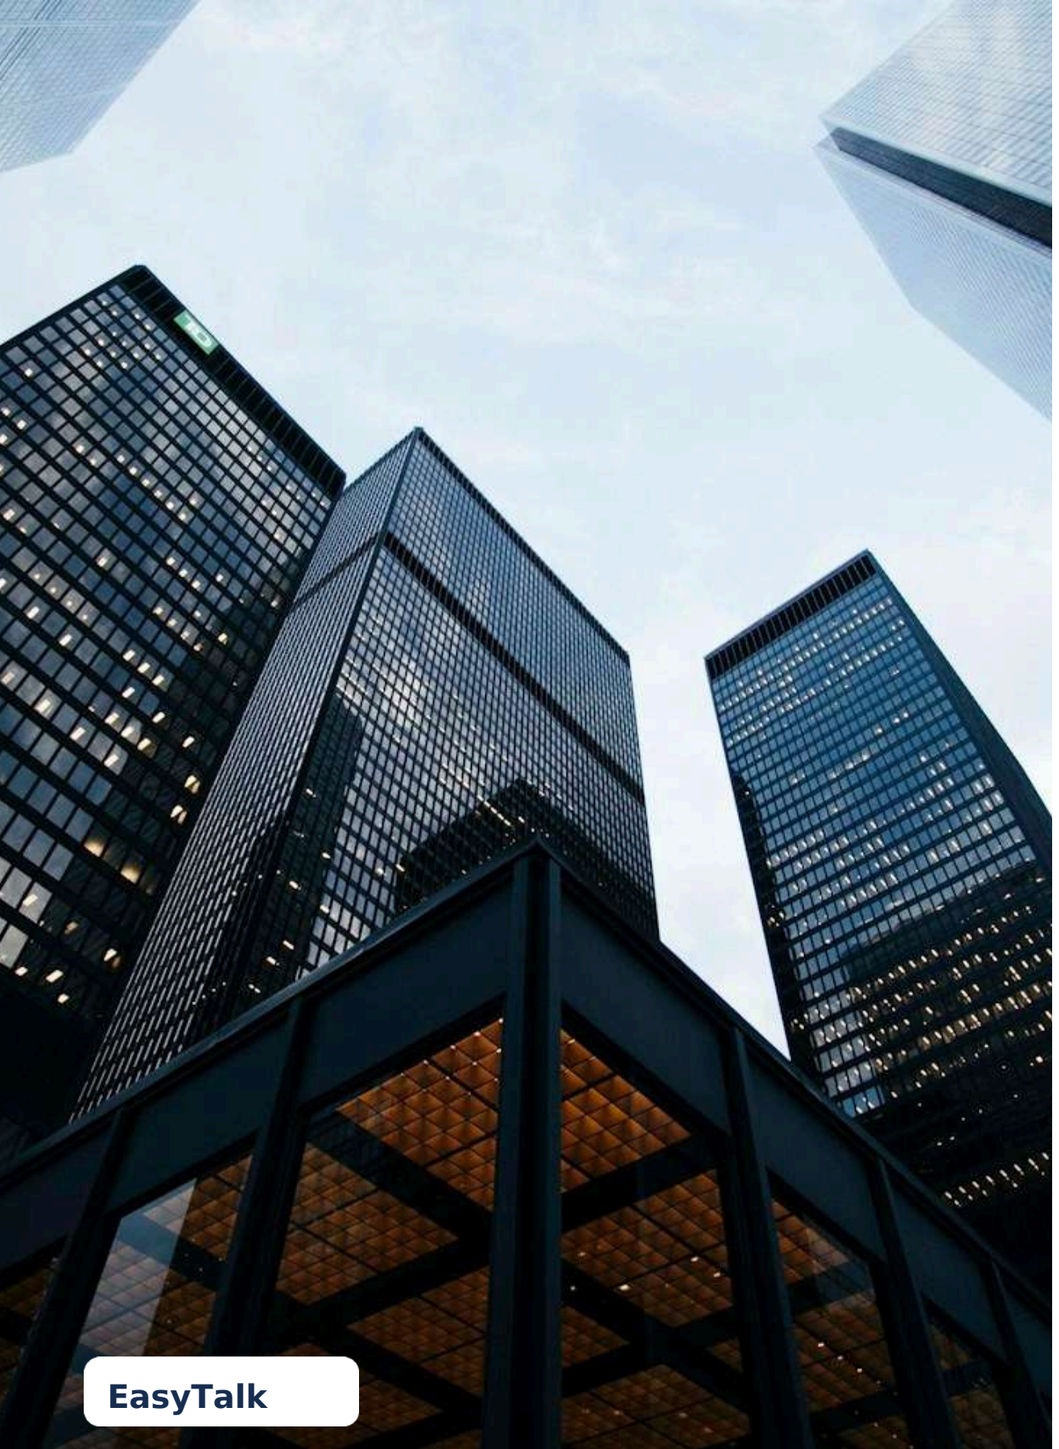

DECODE THE LETTERS

UN

What does it stand for?

An international organisation.

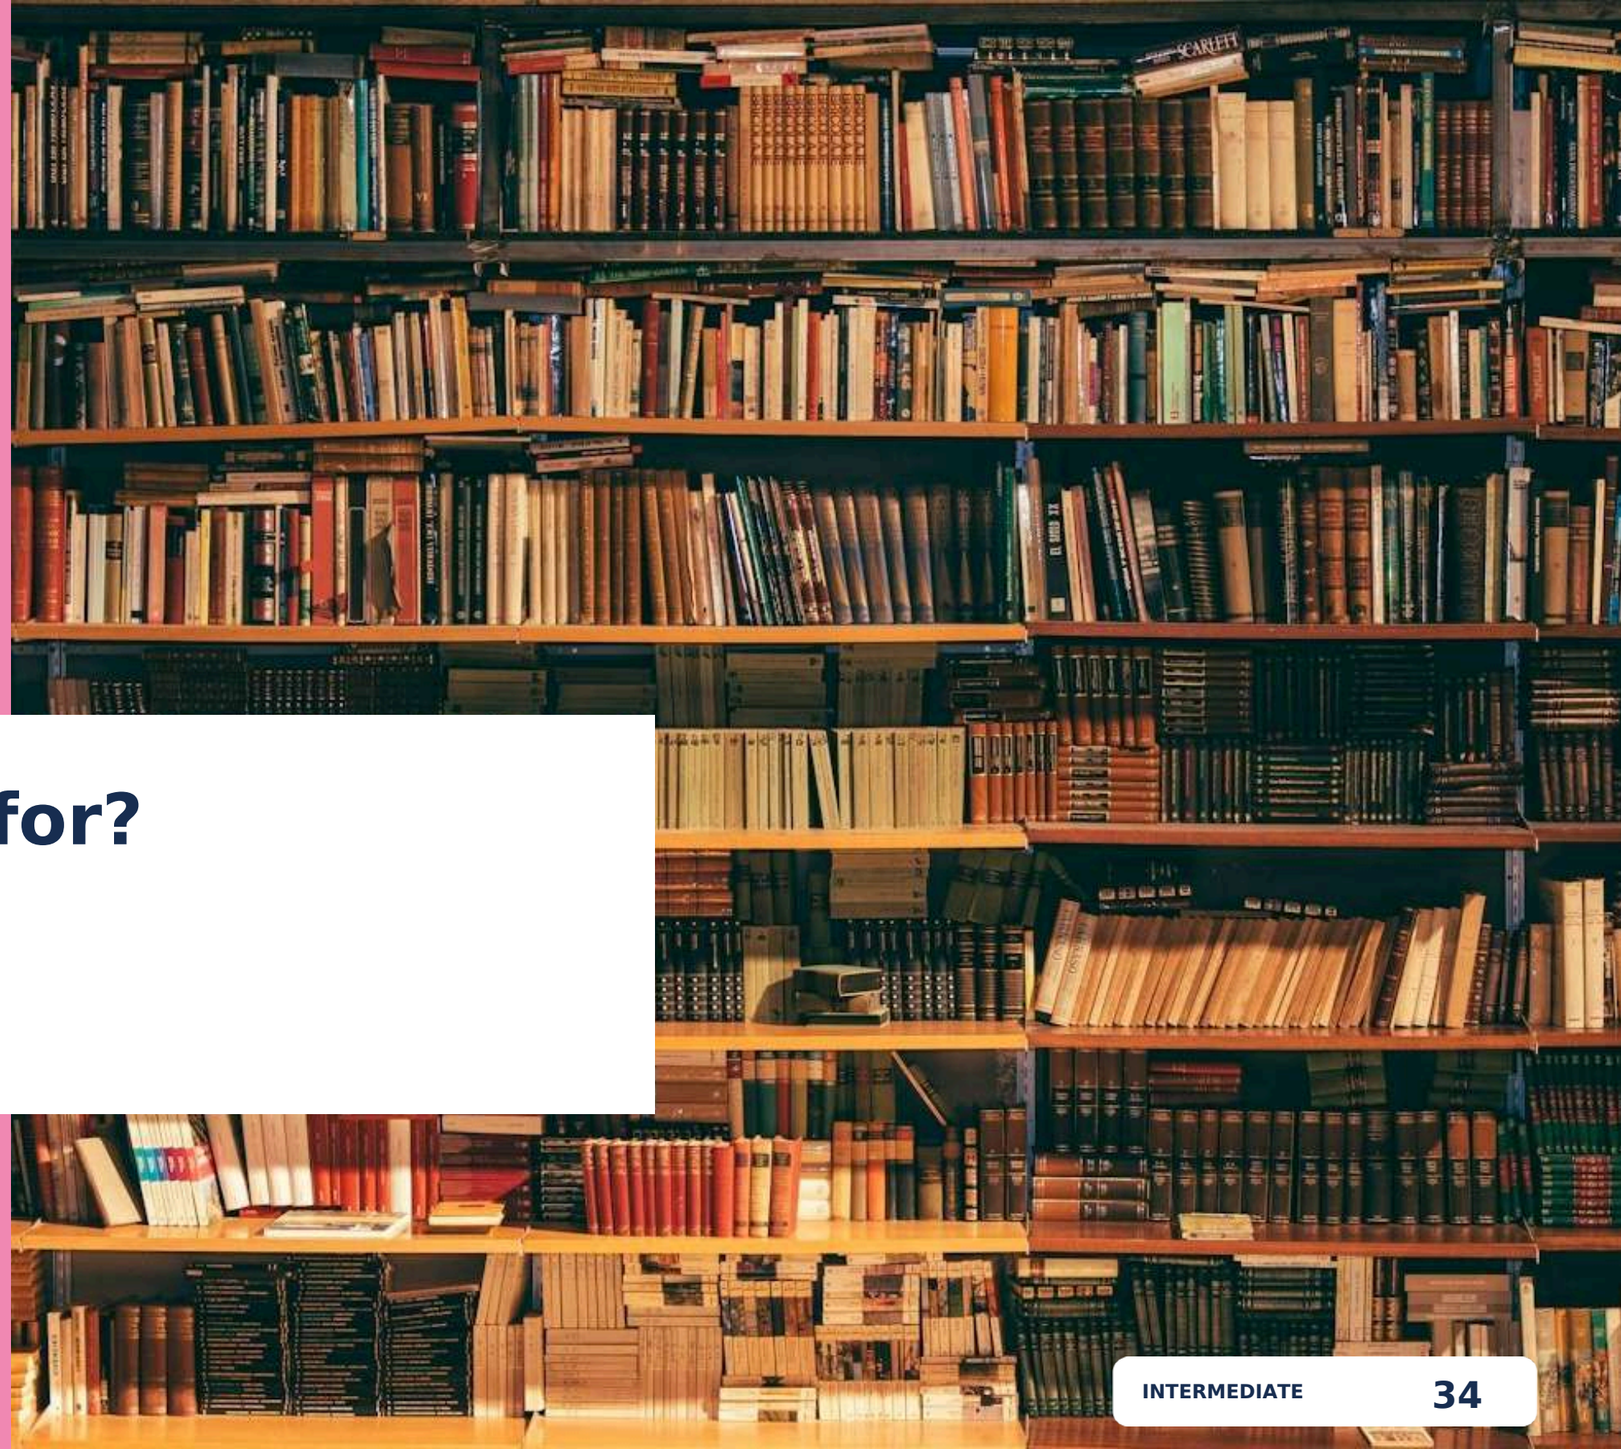

UN

United Nations

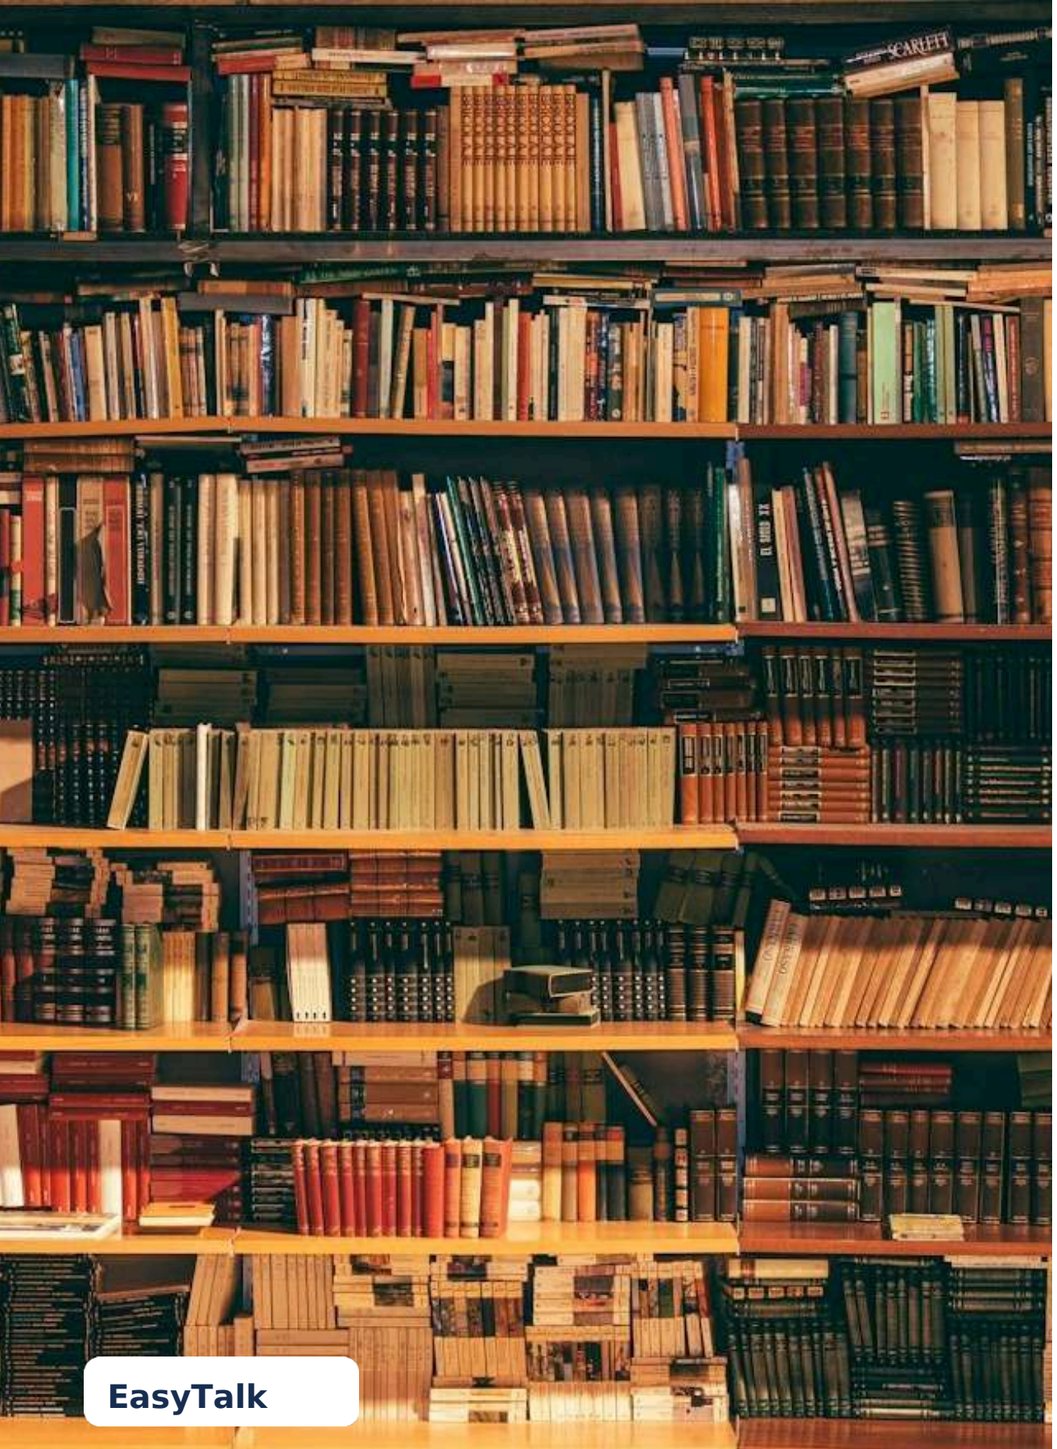

Use it in a sentence.
Share another abbreviation you know.

UNESCO

What does it stand for?

Education, science and culture.

UNESCO

United Nations Educational, Scientific and Cultural Organization

Use it in a sentence.
Share another abbreviation you know.

VIP

What does it stand for?

Someone given special treatment.

VIP

Very important person

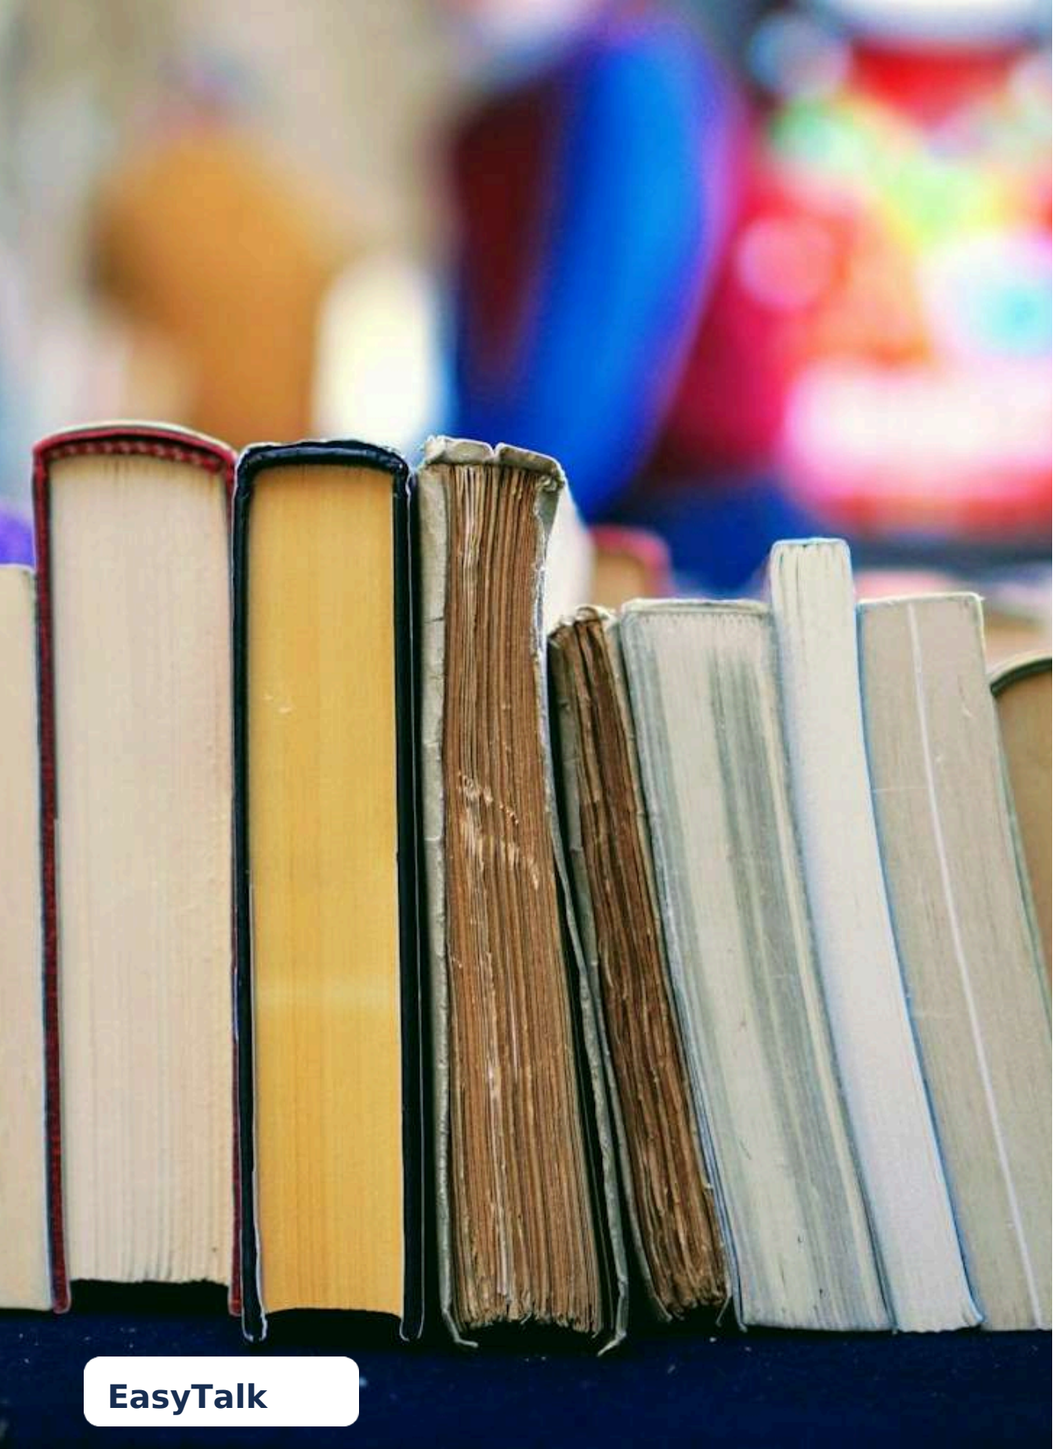

Use it in a sentence.
Share another abbreviation you know.

USSR

What does it stand for?

The full name of a former state.

USSR

Union of Soviet Socialist Republics

Use it in a sentence.
Share another abbreviation you know.

A fair chance

01

What might make someone feel excluded at school or at work?

02

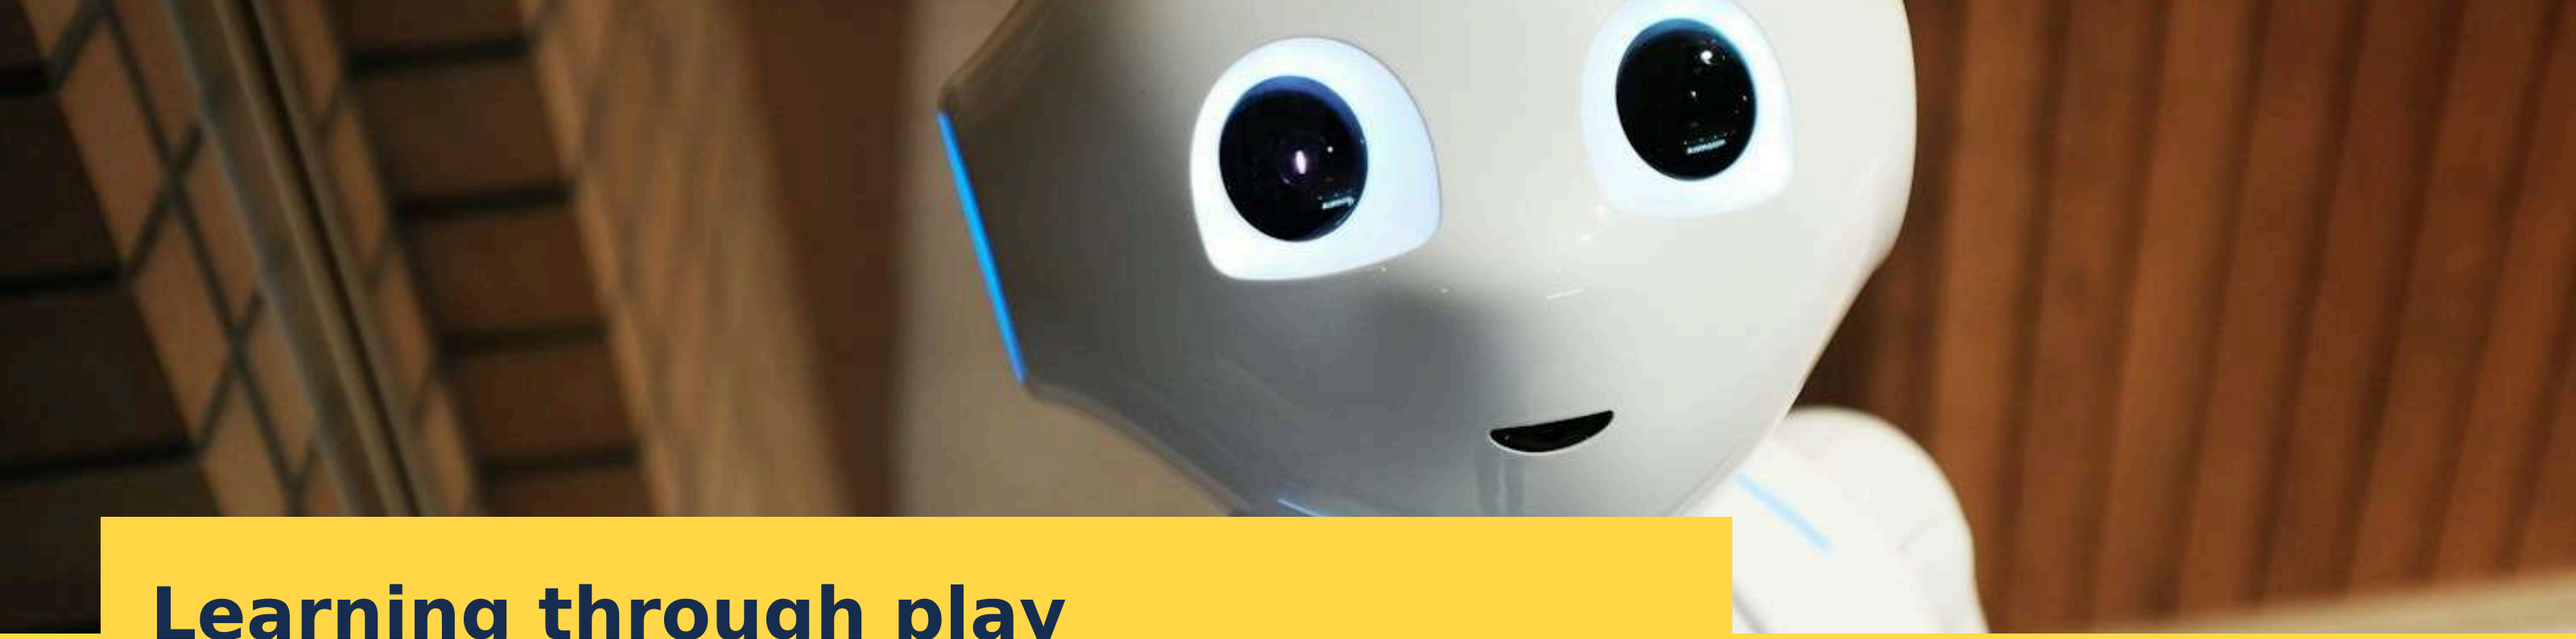

Suggest two ways to give everyone a fair chance to participate.

What did you play with?

01 Which toys or games did you enjoy as a child? What skills did they teach you?

02 Would you give a child a puzzle, building blocks or a musical instrument? Why?

Learning through play

01
Which games help children build skills connected with STEM?

02
Should toys be advertised differently to boys and girls? Explain your view.

Connect your ideas.

WHO

A scientist is a person who investigates questions.

WHICH

A microscope is a tool which makes tiny objects look larger.

THAT

This is the app that helps me organise my research.

A useful app

I use a language app. It helps me practise pronunciation.

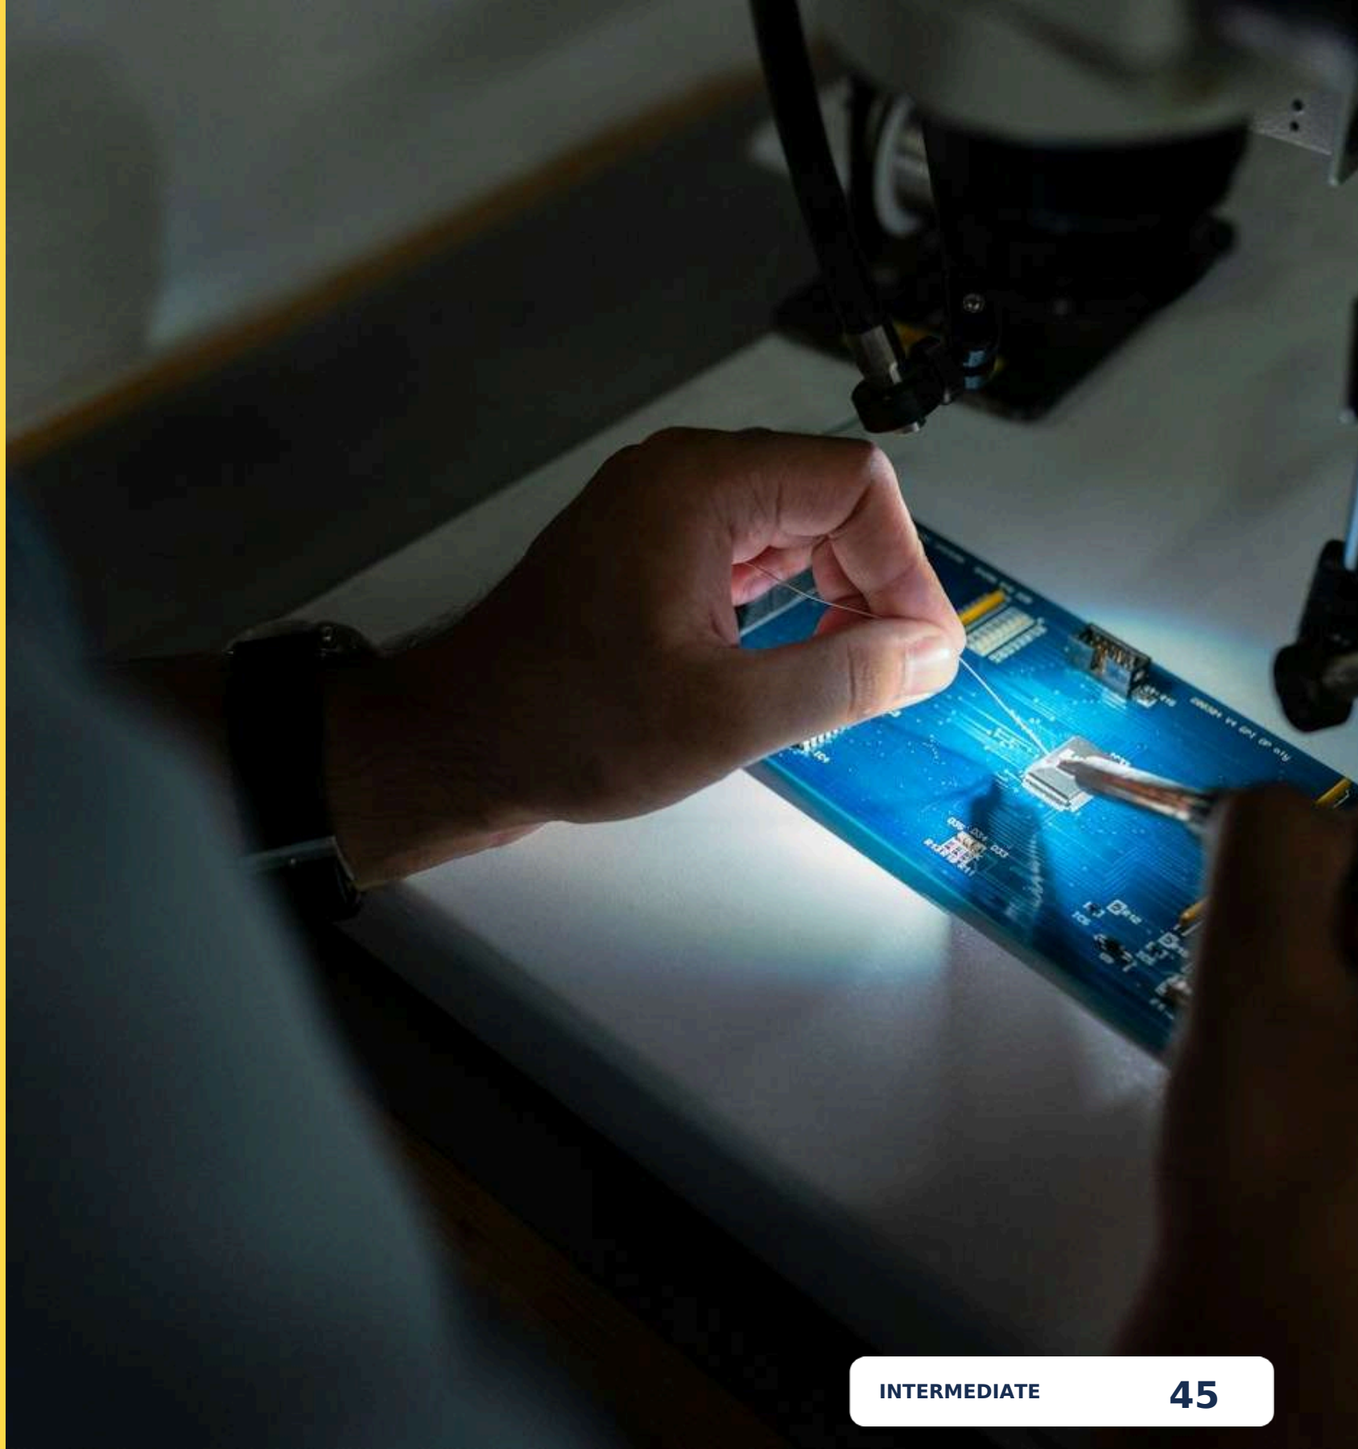

Use who, which or that.

Your sentence:

An inspiring person

Our neighbour is an engineer. She designs energy-efficient buildings.

Use who, which or that.
Compare your sentence in pairs.

A science club

We joined a science club. It meets after school on Fridays.

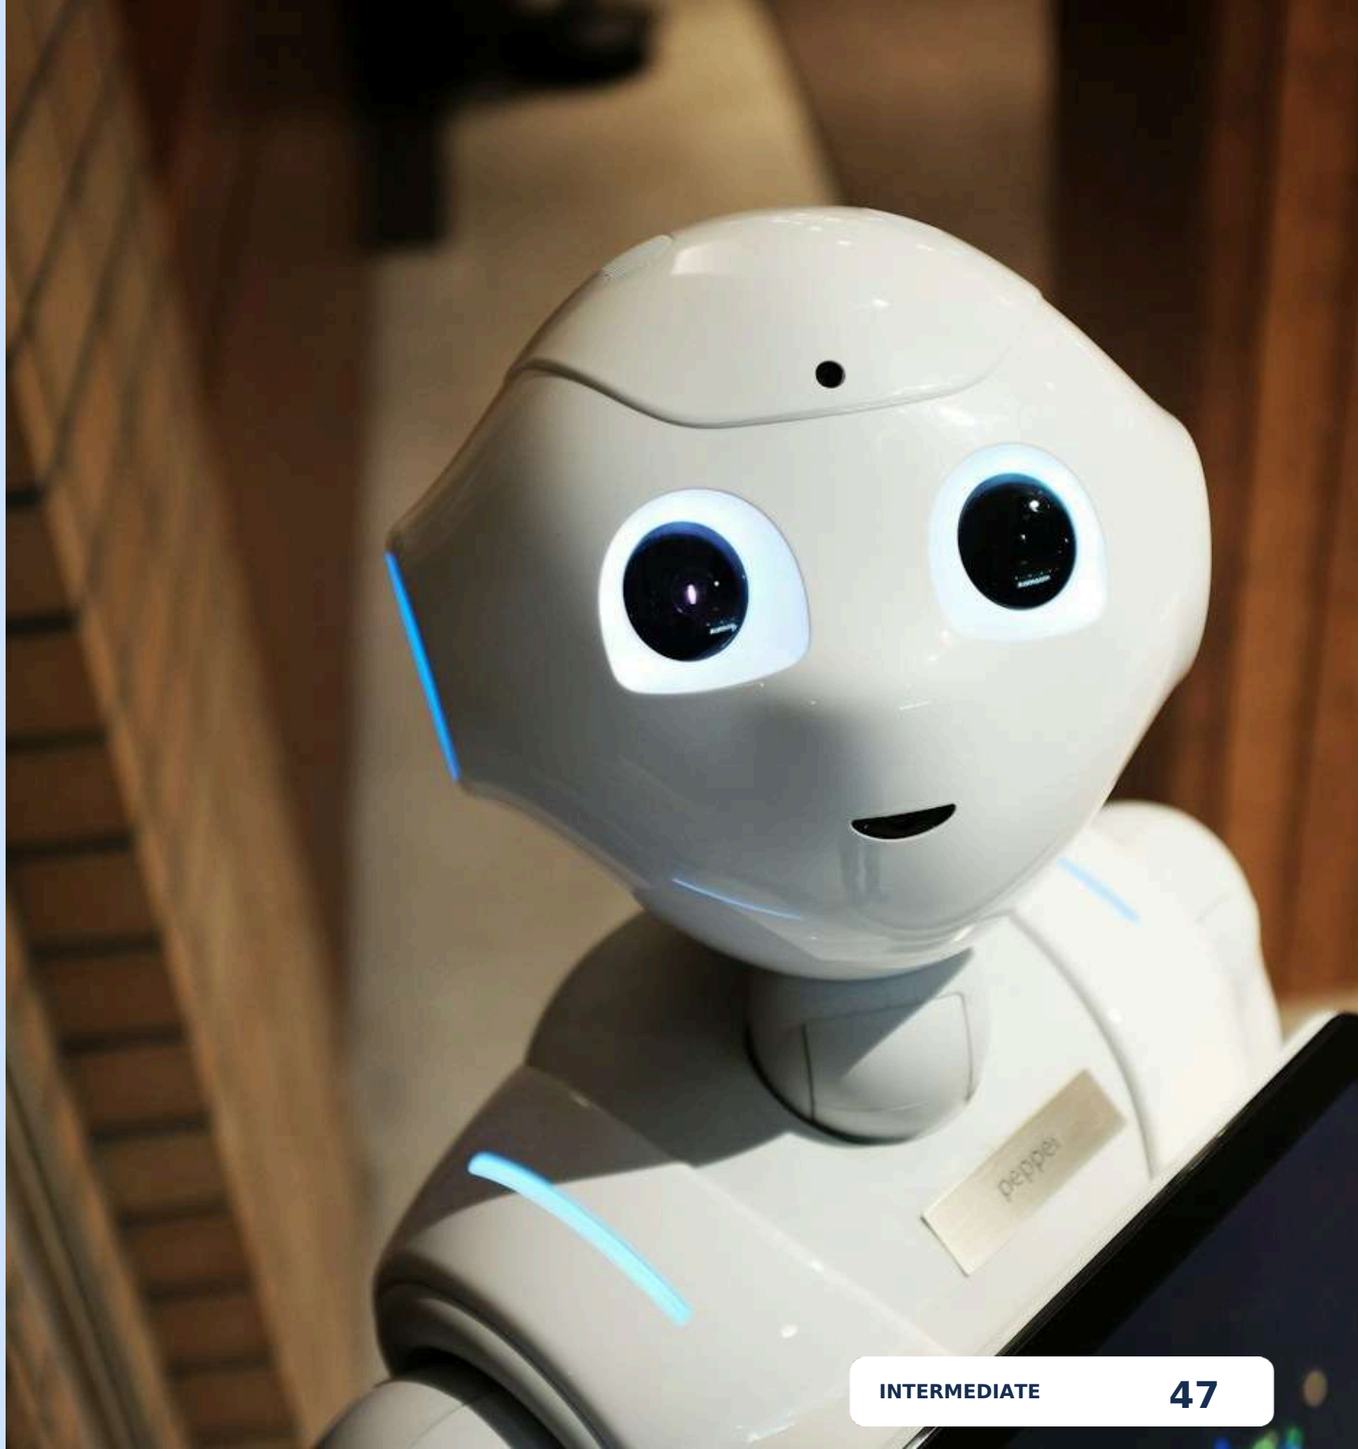

Use who, which or that.

Your sentence:

A new invention

The students built a robot.
It can sort plastic bottles.

Use who, which or that.
Compare your sentence in pairs.

Describe it.
Don’t name it.

“It’s something that helps you see very small things.”

“It’s a person who designs bridges and buildings.”

Listen.
What’s the plan?

Watch the video and answer the following questions:

1. What subjects does Amanda want to study?

2. What subjects does Maria want to study?

https://www.youtube.com/watch?v=lFOSipT6XuQ

True or false?

Listentotheconversationagainanddecide if the statements are true or false.

01 Next year, Amanda and Maria will study more subjects than they do now.

02 Amanda and Maria are late in deciding what subjects to study next year.

03 Amanda’s aunt studied biology, which is also what Amanda wants to do.

True or false?

Listentotheconversationagainanddecide if the statements are true or false.

04 Amanda’s aunt would like to improve her German.

05 Maria found a teacher to be very helpful.

06 Maria isn’t able to choose the subjects that she wants

deadline

Maria: No, when’s the deadline? Amanda: We’ve got another month, but the school emailed us all the list the other day.

a. the time something must be finished by

b. the time something must be started by

deadly

Amanda: No, she’s a chemist. They’re working on a solution to clean up deadly pollution in rivers and lakes.

a. dirty

b. likely to kill you

fascinating

Maria: That sounds so cool and really fascinating. Amanda: It really is. She gets to visit colleagues in different cities sometimes, and she gets her work translated into lots of different languages.

a. very tiring

b. very interesting

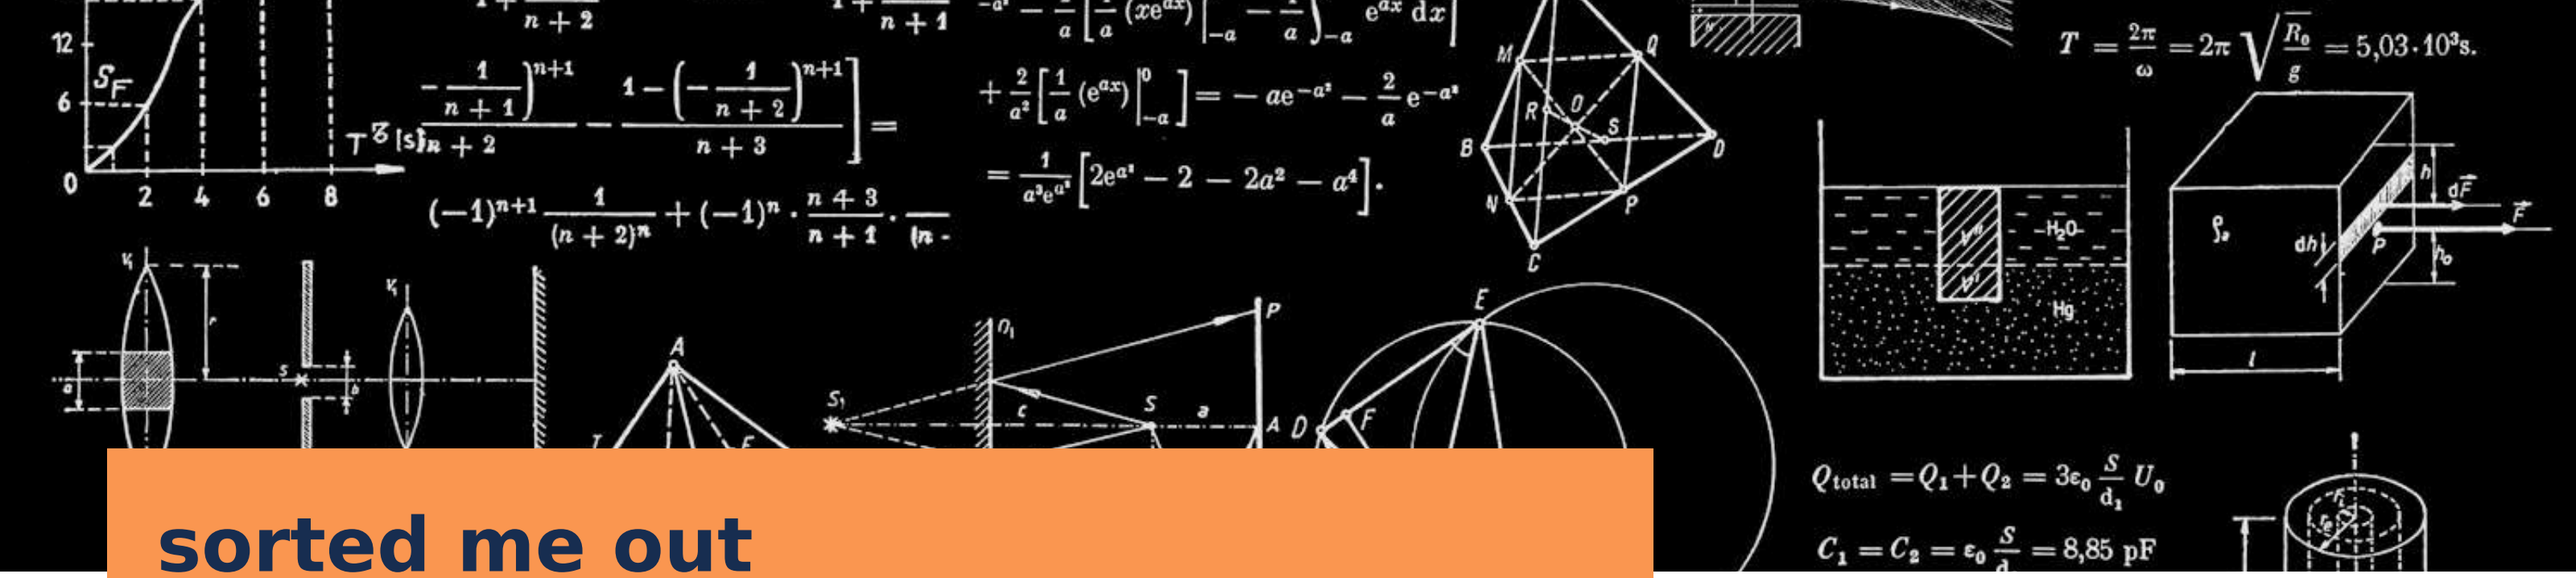

follow in her footsteps

Maria: So, you’re kind of following in her footsteps, then. Science and languages. You could be a biologist in Spain.

a. to do the same job or do the same as somebody else

b. to travel to different places and learn the same languages

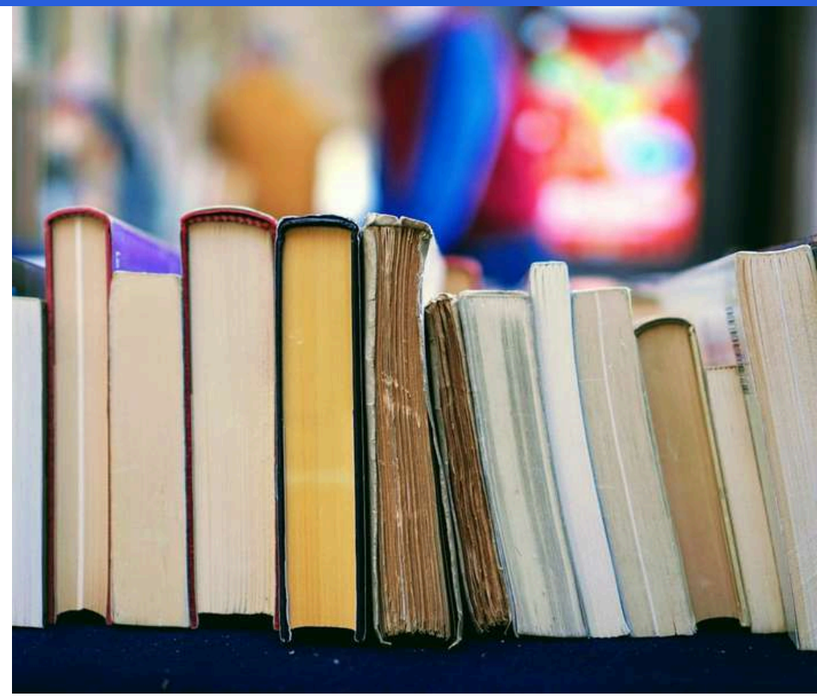

sorted me out

Maria: Yeah, I had a problem with advanced maths last year - she sorted me out some extra classes no problem.

a. to organise something successfully

b. to make a decision about something

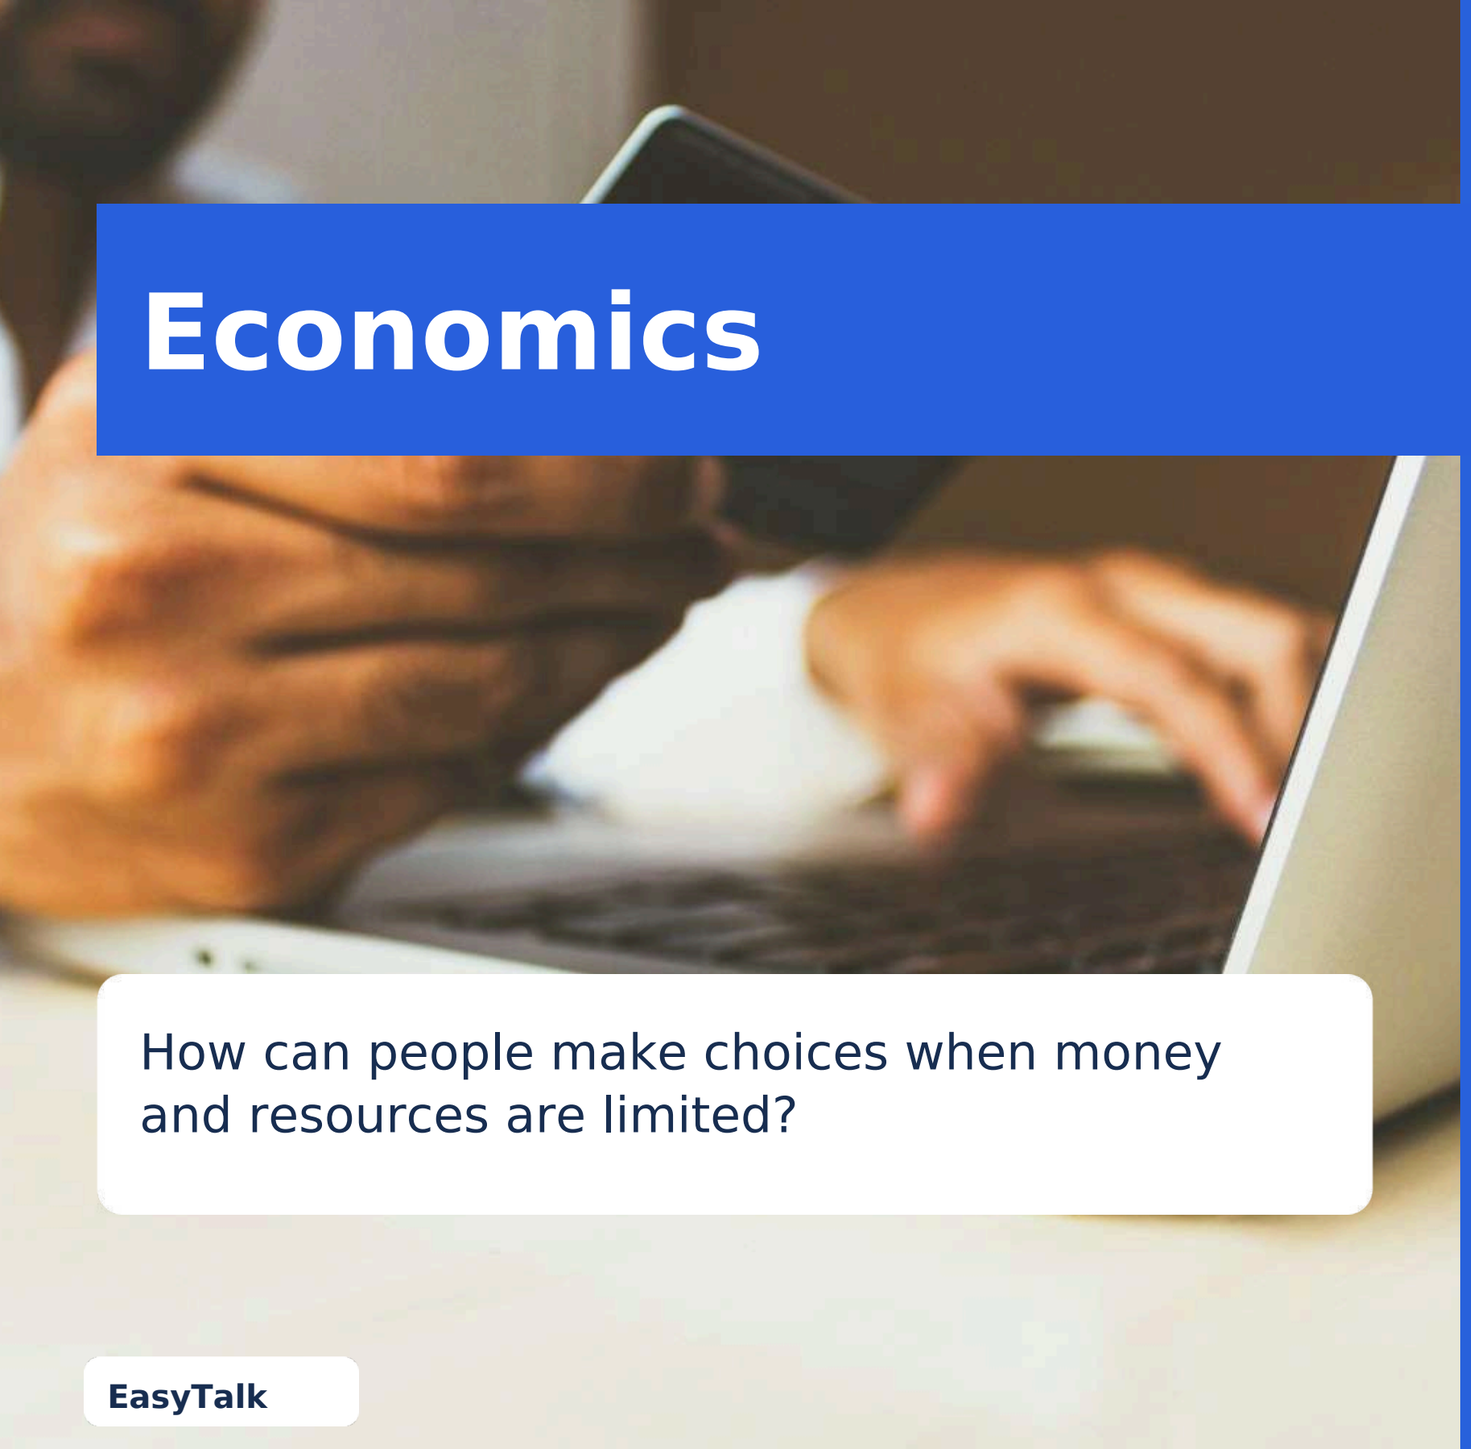

every other day

Amanda: Yes, look. They’re every other day, but history has double lessons on Tuesdays and Thursdays, and Maths is on Monday, Wednesday and Friday, so you can go to both.

a. twice a week

b. not each one in a series, but every two

Economics

How can people make choices when money and resources are limited?

Rate this subject: 1-5

Enjoyment

Your skills

Career opportunities

Your future plans

Sports science

How can we understand movement, exercise and performance?

Would you enjoy it?

What skills would you need?

How would it help your future?

Physics

How can we explain motion, energy and forces?

Rate this subject: 1-5

Enjoyment

Your future plans

Languages

How can language help people communicate across cultures?

Would you enjoy it?

What skills would you need?

How would it help your future?

Your next chapter.

Write a formal letter applying for a university course.

Explain your choice of course, why the university suits you and what you can contribute.

Dear Sir or Madam,
I am writing to apply for a place on your ... course.
